HEATING TECHNOLOGY

# HIGH EFFICIENCY BOILERS & ACCESSORIES

**BUILT TO LAST**

★ Trustpilot ★★★★★

# Proudly rated 'Excellent'

★ Trustpilot

“

*Had an ATAG boiler installed 14 months ago. So glad we chose ATAG. We are saving money and have a warm home and lashings of hot water into the bargain.*

Jane Talbot

”

“

*First class boiler. Quiet, efficient and love the controls from my phone so can change the settings before I get home.*

D Harris

”

“

*Had an ATAG boiler installed. Really happy with this boiler, very quiet and efficient and reasonably priced. And would recommend checking them out if you are considering buying a new boiler.*

Mr Keith Boughey

”

“

*Now that I have had my new boiler for one year, I can report that this is the best most efficient boiler I have ever had. First class on the fitting and the boiler. Also due to the way it's made it is quicker to service.*

David Hobbs

”

“

*Very impressed with our new boiler. It's quiet, efficient and has the ability to serve two showers simultaneously. The weather compensation system not only helps us reduce our gas consumption, but it also ensures a constant ambient temperature in our home. Would highly recommend.*

Mr McKay

”

“

*We have the iC Economiser. It was recommended to us by our service engineer of 20 years to replace our old boiler. It has been doing a great job for 9 months and we couldn't be happier with it. It seems nice and compact and the hot water in particular seems better to us compared with our previous two boilers from other well-known brands.*

B Herring

”

“

*We looked extensively finding the right boiler...*

*There are many combination boilers available, but we were impressed with ATAG. It looks sleek and runs very quietly and works efficiently. We opted for the ONE Zone controller, which is easy to use and can be accessed from a smart phone. The lengthy 14 years warranty gives us peace of mind too. We are very impressed. Our energy bills have reduced too!*

Alison Mathew

”

# The **reliable** and **responsible** boiler for your home

Buying a new boiler is a considerable investment and you need to be sure it's going to keep you warm for years to come, that's why all ATAG boilers come with a ten year warranty as standard, with options to extend up to 14 years.

When you choose ATAG, you are also making the best choice for the environment. All gas boilers produce Nitrogen oxide and these gases are harmful to the environment. However, we're proud that our boilers have some of the lowest NOx levels in Europe which means they're kinder to the environment than any other boilers available in the UK.

At ATAG, we're conscious of environmental issues and are aware we have our role to play in the sustainability of the planet. As well as making highly efficient boilers, 95% of our boiler packaging is recyclable and completely plastic free.

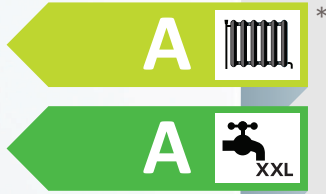

Throughout the world, ATAG boilers are installed in large commercial buildings as well as domestic properties and they are trusted to deliver unrivalled performance, efficiency and supreme reliability. In addition to winning numerous global awards, UK consumers also rate ATAG as one of the best boiler manufacturers on independent review site Trustpilot.

— ULTIMATE EFFICIENCY —  
**iC Economiser Plus**  
Combination boilers

Inside each ATAG Economiser Plus combination boiler, there is a revolutionary device which recycles lost heat. In doing so, it protects the environment while helping to save on your annual gas bills.

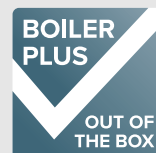

Due to its built-in Passive Flue Gas Heat Recovery Device (PFGHRD) in the same compact casing which is unique in the UK, the ATAG iC Economiser Plus is the only boiler that exceeds all Boiler Plus requirements without having to purchase an expensive add-on.

What's more all of our boilers offer energy efficient solutions that also help to save money on your annual gas bills too.

## iS System High efficiency boilers

System boilers are traditionally installed with an unvented hot water cylinder which provides an increased capacity of hot water.

The fact that the in-built ErP pump and controls are contained within the boiler casing counts towards a simple and space saving solution. And ensures your boiler is as energy efficient as possible, saving you money year-on-year.

### Key features and benefits

**Compact dimensions**  
h700 x w440 x d355 (mm)

**Five models available**  
15kW, 18kW, 24kW, 32kW  
& 40kW

**Completely user friendly**  
with intuitive controls

**Quiet in operation**  
Due to bottom-up modulation

**Frost protection**  
With built-in frost protection

**ErP "A" rated**  
Achieves ErP 'A' rating  
for all models

- ✓ **14 years peace of mind** without the need of pricey breakdown cover with the Complete Care Pack, which includes smart controls, system cleaners and a filter to ensure maximum efficiency and reliability for longer

# Controls

## ATAG ONE<sup>Zone</sup> Smart controller

Take control with our ATAG ONE<sup>Zone</sup> smart controller. Adjust your heating and hot water with your mobile device, wherever you are. Save money with no compromise on comfort by only heating your home when you need it.

ErP class VI, contribution to system energy efficiency 4%.

### Key features and benefits

- ✓ Remote control via smartphone app
- ✓ Remote diagnostic solution for technical issues. Customer permission required
- ✓ Accurate temperature and weather information
- ✓ Push-button and remote control
- ✓ Timer programs
- ✓ 'AutoAlert' error reporting
- ✓ Adjustable weather-dependant control
- ✓ Hot water timer programs
- ✓ Frost and bacteria protection
- ✓ Free ATAG ONE Zone App for Android and iOS
- ✓ Compact dimensions (mm) 103h x 103w x 18d
- ✓ Holiday program
- ✓ Increase your boiler warranty up to 14 years when the ATAG ONE<sup>Zone</sup> smart controller is purchased and installed as part of our Complete Care Pack

## tado Wireless Smart thermostat

The smart way to control your heating and hot water. tado<sup>o</sup> is your climate assistant that ensures a comfortable & healthy climate, and could considerably reduce energy consumption.

ErP class VI, contribution to system energy efficiency 4%.

### Key features and benefits

- ✓ Available with 14 years warranty as part of ATAG Complete Care Pack
- ✓ Save money: optimise your heating to suit your individual needs, while saving energy and costs on your heating bills
- ✓ Comfortable Climate: Enjoy the perfect room temperature at all times
- ✓ Anytime. Anywhere: The intuitive smartphone app enables you to control your heating anytime from anywhere, more comfortably and efficiently than ever before
- ✓ More insights: Clear overview of your climate at home, when you were heating, and how much you've saved

## ATAG Programmable Room Thermostat

With its user-friendly large buttons and backlit LCD screen the ATAG Programmable Room Thermostat is the perfect solution.

ErP class IV, contribution to system energy efficiency 2%.

### Key features and benefits

- ✓ Available with 14 years warranty as part of ATAG Complete Care Pack
- ✓ User friendly with large buttons and an LCD backlit screen
- ✓ Contemporary design with a sleek white casing
- ✓ Pre-paired thermostat and receiver for easy installation
- ✓ Can be programmed to work with up to 6 different zones
- ✓ Save energy using holiday mode

# ATAG iSteel hot water cylinders

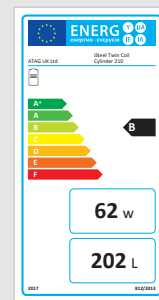

## ATAG iSteel twin coil cylinders

The iSteel twin coil cylinders range from 150 to 300 litres. They can be combined with the ATAG iS system and iR regular boilers as well as the ATAG iSol range of solar panels.

### Key features and benefits

- ✓ Rapid heat up recovery
- ✓ Compatible with solar systems
- ✓ 25 years warranty
- ✓ Compliant with part 'L' of the building regulations – conservation of fuel and power
- ✓ Rated 'B' for energy efficiency\*\*
- ✓ 2 years warranty on cylinder components

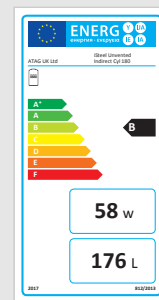

iSteel twin coil 210l cylinder.

## ATAG iSteel unvented cylinders

The iSteel unvented cylinders range from 90 to 300 litres. They can be combined with ATAG iS system and iR regular boilers.

### Key features and benefits

- ✓ Rapid heat up recovery
- ✓ Rated 'B' for energy efficiency\*\*
- ✓ Compliant with part 'L' of the building regulations – conservation of fuel and power
- ✓ 25 years warranty
- ✓ 2 years warranty on cylinder components

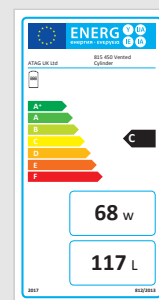

iSteel unvented 180l cylinder.

## ATAG iSteel vented cylinders

The iSteel vented cylinders range from 85 to 260 litres. They can be combined with ATAG iS system and iR regular boilers.

### Key features and benefits

- ✓ Robust and reliable
- ✓ Built-in secondary return for maximum hot water deliver
- ✓ Rated 'C' for energy efficiency
- ✓ Easy to install
- ✓ Part L compliant
- ✓ 10 years warranty

iSteel vented 120l cylinder.
